Enthusiastic IT student eager to contribute to team success through hard work, attention to detail and excellent organizational skills.

I have been successful handling problems and determining optimal solutions. Good documentation and reporting skills with solid understanding of clients, team and vendor relations. I have a solid background in system maintenance, web application development and enthusiasm for completing data analysis and enacting process improvements.

Well-versed in solving technical business problems with minimal direction as well as operating in team-based environments. I am also a Skilled Technologist with experience configuring computers, servers and peripheral devices to work with established company and security parameters.
